# How To Hang Art

#ArmoryArtsAtHome

## WHAT YOU WILL NEED...

HAMMER

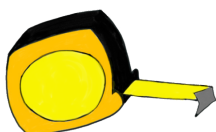

NAILS

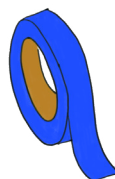

2 PICTURE HOOKS

LEVEL

TAPE MEASURE

BLUE TAPE OR PENCIL

1. FIRST WE WILL FIND THE HEIGHT THAT THE PAINTING WILL HANG ON THE WALL.

TO DO SO, MEASURE THE HEIGHT OF YOUR ARTWORK.

THEN DIVIDE THAT MEASUREMENT IN HALF.

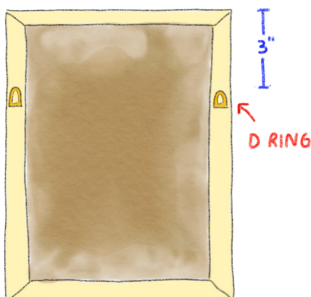

$$10" \div 2 = 5"$$

2. NEXT, LOOK AT THE BACK.

MEASURE THE DISTANCE BETWEEN THE HANGING HARDWARE AND TOP OF THE PIECE.

WE ARE USING D RINGS IN THIS EXAMPLE

SUBTRACT THAT NUMBER FROM HALF OF THE HEIGHT.

(BACK OF ARTWORK)

$$5" - 3" = 2"$$

**Show Us  
Your Walls!**

**What did  
you hang?  
We want to  
see pics!**

**Use the hashtag  
#ArmoryArtsAtHome  
or send pics to  
news@armoryarts.org.  
Enjoy!**

### #ArmoryArtsAtHome

3. TAKE THAT TOTAL AND ADD THAT TO 58" (EYE LEVEL)  
THIS MEASUREMENT IS GOING TO TELL US THE  
HEIGHT THAT WE WILL NAIL IN OUR PICTURE  
HOOKS.

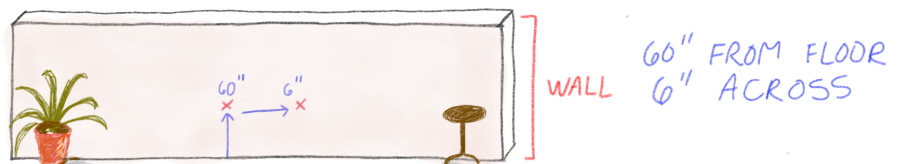

$$2" + 58" = 60"$$

4. NOW THAT YOU KNOW THE HEIGHT OF YOUR PIECE, YOU ARE  
GOING TO MEASURE THE WIDTH BETWEEN D RINGS.

5. ONCE YOU'VE GATHERED YOUR LENGTH AND WIDTH, IT'S  
TIME TO PUT THOSE TWO MEASUREMENTS ONTO THE  
WALL.

MARK YOUR TWO POINTS WITH A PENCIL OR BLUE TAPE.  
USE A LEVEL TO MAKE SURE THEY ARE STRAIGHT.

6. THEN GENTLY HAMMER IN YOUR PICTURE HOOKS

7. FINALLY, PUT YOUR FRAME INTO PLACE AND MAKE  
SURE IT'S LEVEL!
